CREATING SINGLE PDF FROM MULTIPLE DOCUMENTS

NOTE: There are several methods of creating single PDF from multiple documents and this is just one of them. The instructions are intended only as a general description of the process. These instructions were prepared using Adobe Acrobat DC Pro. Your procedure may vary depending on which PDF creation software you are using.

Adobe Acrobat DC allows you to bring together a variety of different files and formats and combine them into a **single** PDF file for distribution.

Files you can combine to create a single PDF file:

- MS Word
- MS Excel
- MS PowerPoint
- PDF Files
- Picture formats (.jpg, .png, .tiff, etc)

Files you will need to change before you can combine them:

- Emails will need to be converted to PDF files by clicking File > Save as Adobe PDF in Outlook
- Web pages (HTML files) should be saved as PDF files

TO CREATE SINGLE PDF FROM MULTIPLE DOCUMENTS

- 1. Ensure that you have copies of all the required documents saved to your computer in electronic format. It will be easier if you put them all in one folder.
- 2. Open Adobe Acrobat DC.
- 3. Click on File > Create > Combine Files into a Single PDF...
